Half-yearly water meter readings taking place

Gladstone Regional Council (GRC) advises that its next period of half-yearly water meter readings will commence from Tuesday 17 June.

Council staff conducting readings will be dressed in GRC-branded clothing and will carry an authorised officer card featuring photographic identification.

Residents are asked to keep water meters accessible and clear of building materials, soil, vehicles, or other objects.

Council also reminds residents to keep unrestrained dogs controlled and gates closed.

Water consumption for this half-year period will be billed in the annual rates and charges notice to be issued in August 2025.

Residents unable to locate their water meter can phone Council on 4970 0700.
